Submission on bill 242
To the Clerk of the Committee

Dear Sirs,

I understand that there is a consideration on the bill 242 on Full Day Early Learning Statute Law Amendment Act, 2010. With all due respect I hereby submit a paper which I think is appropriate, even though I live far away in Sweden.

As an Swedish author and personal development consultant I have enjoyed the privilege to be invited to give a speech at a Swedish National Parliament seminar on December 10, 2008. The topic was: "Secure Children - Secure Parents - The role of family in the 21st century". My speech has been translated to English and has created some international interest, as Sweden has offered high quality full day early learning for over 30 years, and little is known of its results.

The speech can be read at: http://www.stratletter.com/print_dec10speech.html . The sources can be found at: http://www.stratletter.com/print_sources_dec10speech.html . For your convenience I attach a pdf version of each. The English version of my speech has been published in the newsletter /Strategies to Learn & Grow/.

Yours sincerely
